

COMUNICADO

Gobierno de Gibraltar: Ministerio de Servicios Financieros y Digitales

El Gobierno de Gibraltar se une al Consejo Global de Negocios Blockchain

El Gobierno de Gibraltar colaborará con los principales innovadores, empresas e instituciones financieras y legales del entorno Blockchain

Gibraltar, 3 de noviembre de 2020

El Gobierno de Gibraltar ha anunciado hoy que entrará a formar parte del Consejo Global de Negocios Blockchain (Global Blockchain Business Council, GBBC), la principal asociación del sector de la tecnología blockchain. Como parte de su compromiso con el progreso de la tecnología blockchain global, el Gobierno de Gibraltar se unirá al Consejo como Miembro Observador (Observing Member).

Fundado en Davos en el año 2017, GBBC reúne a innovadores y líderes de más de 50 países para impulsar la adopción de la tecnología blockchain colaborando e informando a reguladores, líderes empresariales y legisladores sobre los beneficios y aplicaciones de esta revolucionaria tecnología. GBBC cree en la capacidad de la tecnología blockchain para crear sociedades más seguras, igualitarias y funcionales en todo el mundo.

El Ministro de Servicios Financieros y Digitales, Albert Ísola, manifestó “GBBC está comprometido con el desarrollo del siguiente sector en alcanzar un billón de dólares mediante la formación, apoyo y colaboración. La visión de GBBC para impulsar la adopción de la tecnología blockchain a base de colaborar e informar a empresas y reguladores se encuentra completamente alineada con nuestra propia misión y nos sentimos muy satisfechos de formar parte de esta prestigiosa organización donde podremos colaborar con algunos de los mejores innovadores y líderes del sector para contribuir a alcanzar este objetivo común”.

Sandra Ro, Consejera Delegada de GBBC, añadió “El Consejo Global de Negocios Blockchain da la bienvenida al Gobierno de Gibraltar a nuestra red global como Miembro Observador de GBBC. Estamos impacientes por poner de manifiesto la importante labor e innovación de Gibraltar en activos digitales y tecnología blockchain a medida que impulsamos la colaboración, adopción y oportunidades globales”.

Se trata de la noticia más reciente en una cadena de novedades de alto perfil por parte del Gobierno de Gibraltar que, a principios de este año, anunció su participación en INATBA (International Association for Trusted Blockchain Applications o Asociación Internacional de Aplicaciones Blockchain Fiables), un grupo internacional de miembros del sector blockchain a nivel UE, y continúa expandiendo su alcance internacional.

PRESS RELEASE

No: 765/2020

Date: Tuesday 3rd November 2020

Government of Gibraltar Joins the Global Blockchain Business Council

GoG will sit alongside leading blockchain innovators, enterprises, and legal and financial institutions

Gibraltar – November 3, 2020 – H.M. Government of Gibraltar has today announced its membership of the Global Blockchain Business Council (GBBC), the leading industry association for the blockchain technology industry. Committed to advancing global understanding of blockchain technology, the Government of Gibraltar will join as an Observing Member.

Launched in Davos in 2017, the GBBC brings together innovators and thought-leaders from over 50 countries to further adoption of blockchain technology by engaging and educating regulators, business leaders, and lawmakers on the benefits and applications of this groundbreaking technology. The GBBC believes in blockchain technology's ability to create more secure, equitable, and functional societies around the globe.

The Hon Albert Isola, Minister for Digital and Financial Services said, "The GBBC is committed to developing the next trillion dollar industry through education, advocacy, and partnership. GBBC's vision to further the adoption of blockchain technology through engaging and educating enterprises and regulators is totally aligned with our own mission and we are delighted to stand alongside this prestigious organisation where we can collaborate and work together with some of the best innovators and thought-leaders in this sector to help us achieve this common goal."

Sandra Ro, CEO of GBBC, said, "The Global Blockchain Business Council welcomes the Government of Gibraltar into our global network as a GBBC Observing Member. We look forward to highlighting the important digital assets and blockchain technology work and innovation from Gibraltar as we advance global collaboration, adoption, and opportunities."

The news is the latest in a string of high-profile announcements for the Government of Gibraltar who, earlier this year, announced they had joined INATBA, a group of international blockchain industry players at an EU-level and continues to work in expanding its reach internationally.

About Gibraltar

A British Overseas Territory, Gibraltar is a self-governing and self-financing democracy that has established itself globally as a reliable centre for the blockchain and digital assets industry. In January 2018, Gibraltar became the very first jurisdiction globally to introduce legislation around Distributed-Ledger-Technology (DLT), and has since asserted its position as a leading blockchain and cryptocurrency hub. With Gibraltar's core values of regulation, reputation, and speed to market at the foundation of its efforts within the blockchain industry, Gibraltar is now globally renowned for its commitment to creating a sustainable and secure regulatory framework for blockchain, as well as being one of the leading proponents in the advancement of the technology. About The Hon Albert Isola MP

The Honourable Albert Isola MP is Gibraltar's Minister for Digital and Financial Services with the primary responsibility of raising Gibraltar's profile as an established onshore, mainstream, well-regulated financial services centre. Working closely with the financial services regulator, the Financial Services Commission, he is responsible for financial services policy, product development, and responding to international initiatives such as international tax compliance. Minister Isola played a leading role in the establishment of the Gibraltar International Bank, a first for Gibraltar as a home-grown full-service credit institution.
